You name it, we do it!

As a leading Private label Manufacturer of **Cosmetics, Aerosols, Perfumes & Home Care** in the Middle East, L'Origine offers unique level of services to its customers.

From the brief, products formulation, packaging design to ready-to-market products, including all regulatory and logistics steps, L'Origine is guiding its customers in each step of the project development and **bring their projects to life.**

ABOUT US

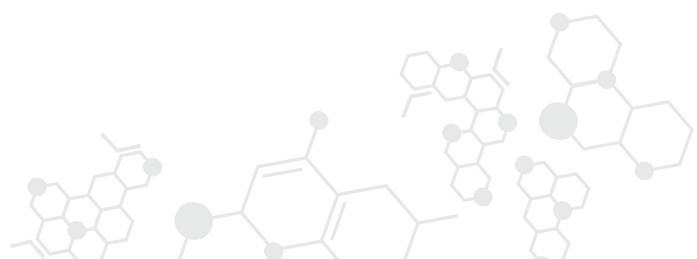

YOUR
success
IS OUR
success

OUR VISION

More than a
Private Label Manufacturer

...Your Partner

ODM/OEM SERVICES

Your ideas into Life! ...Private Labelling

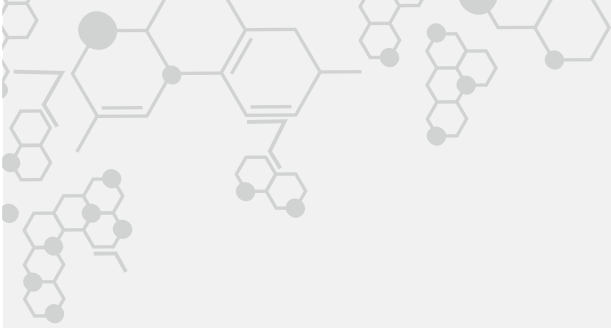

L'Origine ODM (Private labelling) arrangement provides a 360 support from your brief & business plan to ready-to market products, our experts will guide you in all steps of your product development, packaging outsourcing, primary & secondary design, regulatory steps until delivery.

You can choose from our existing saved formulations or customize your desired formulation to make it exclusive. Packaging can be outsource or taken from our existing inventory. We are committed to developing exceptional resources and guiding you during every step of the process.

We ensure that the product you are getting is exclusive, durable, and trustful since it represents your own values.

You name it, We do it! ...Licensing

L'Origine's OEM (Licensing) arrangement provides you the highest level of service, flexibility & confidentiality. OEM stands for Original Equipment Manufacturing, and refers to products that are fully designed by one company and then licensed out to a manufacturer to produce.

High Quality Standards

OUR Priority

L'Origine is reputed for its high quality standards **(GMP, ISO 22716 & EQM)**, **reliability, flexibility, and trusted** by customers from all over the world.

This guarantee your products will go through several quality check-ups at each step of development & production - from product design to delivery.

We adhere to and maintain the following in order to ensure quality:

- Standard operating procedures (SOPs)
- Complete documentation for processes and deviations
- Stage by stage quality checks
- Regulatory compliance
- Compliance with Personal Care Products Council (CTFA) accepted microbiology tests
- Regular calibration of testing equipment and instruments
- Raw material quality inspection and traceability records
- Batch records & Quality control tests
- Professionally qualified and experienced quality control staff
- 360 quality management
- Quality complaint investigation & reporting

Explore
possibilities
together

PROJECT LIFE CYCLE

STEP 01 IDEA

SHARE YOUR BRIEF & SIGNED NDA

The confidentiality of your project is our priority. Brief will include discussion about your concept, formulas requirement, packagings, design, claims, countries of distribution and budget.

STEP 02 ESTIMATION

GET A PRICE ESTIMATION

Based on your brief, we will send you a price estimation to ensure this is matching your business plan and project is viable.

STEP 03 DEVELOPMENT

EVALUATE OUR SAMPLES, SELECT YOUR PACKAGING, DESIGN YOUR LABELS

Sample submissions, testing, stability, compatibility, ingredients list, marketing claims, logo & labels design etc.

STEP 04 BEST PRICE

GET YOUR FINAL QUOTE & PLACE YOUR ORDER REGISTER YOUR PRODUCTS

Based on sample approval, we will send you final price offer, will finalize the commercial terms, and will start the registration process in your countries of distribution.

STEP 05 PRODUCTION

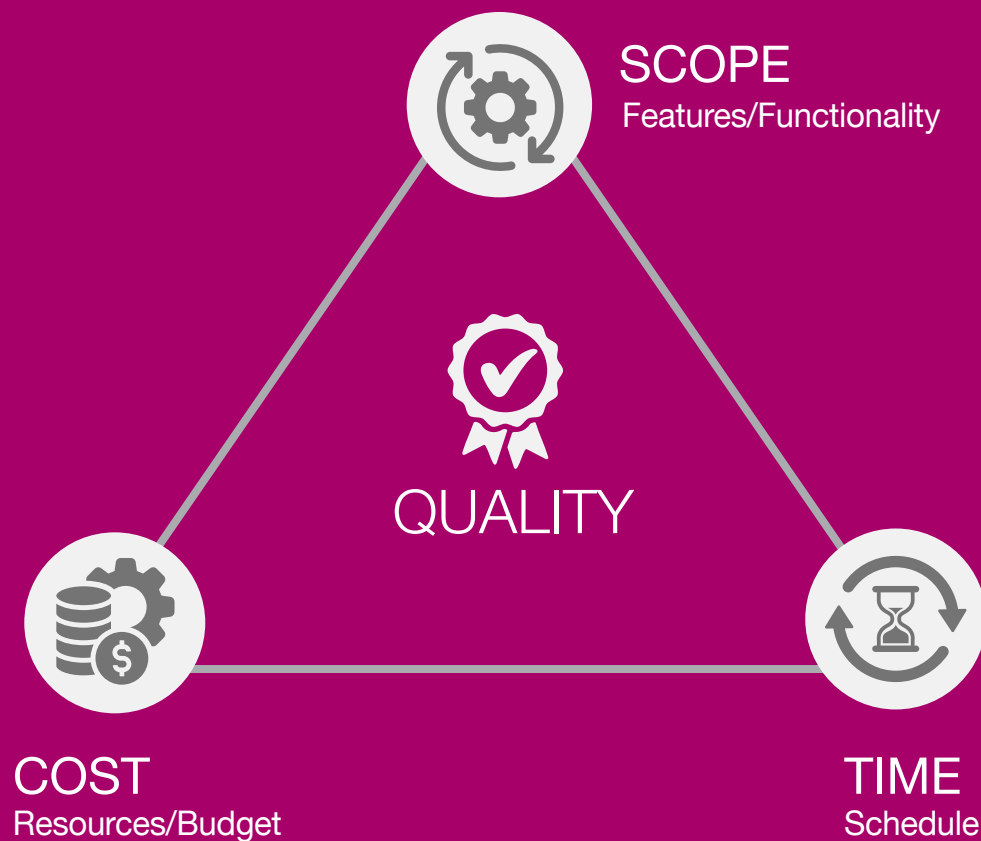

HANDOVER TO PRODUCTION, LEAD TIME & DELIVERY ARRANGEMENT

Procurement, project scale up, lead time, logistics anticipation, documentations, container booking until it reach your warehouse

PROJECT TIMELINE

“ Today’s market demands
speed and flexibility
any steps of the process
will be adjusted to
your requirements ”
